## Warrant for Annual Town Meeting

---

THE STATE OF NEW HAMPSHIRE. .

[L.S.]

*To the Inhabitants of the Town of Merrimack, in the County of Hillsborough, in said State, qualified to vote in town affairs:*

You are hereby notified to meet at the Town House in said Merrimack on Tuesday, the eleventh day of March next, at nine o'clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing and delegate to Constitutional Convention.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.
3. To see what sum of money the town will vote to raise or appropriate for the repair of highways and bridges.
4. To see if the town will vote to raise or appropriate the amount of money necessary to secure state aid for the maintenance of the state highway or take any action relating thereto.
5. To see if the town will vote to raise or appropriate the amount of money necessary to secure state aid for the permanent improvement of highways or take any action relating thereto.

6. To see what sum of money the town will vote to raise for the town library.

7. To see what sum of money the town will vote to raise for Memorial Day.

8. To see if the town will vote to allow a discount on the early payment of taxes and make an appropriation of the same.

9. To see if the town will vote to appropriate the tax received by the town on the Gage fund from the savings banks for the year ending January 31, 1919, and add the same to the income of said fund.

10. To see if the town will vote to raise or appropriate the amount of money necessary to pay the interest on the trust funds raised by the town.

11. To see if the town will vote to erect guide boards and raise or appropriate money for the same.

12. To see if the town will vote to instruct the selectmen to hire money in anticipation of taxes or take any action relating thereto.

13. To see if the town will vote to build a permanent bridge or take any action relating thereto.

14. To see what amount of bonds the town will require for the trustees of trust funds.

15. To see if the town will vote to raise or appropriate a sum of money for the proper entertainment of the soldiers on their return to their home town or take any action relating thereto.

16. To see if the town will vote to observe Old Home Day and raise or appropriate money for the same.

17. To see if the town will vote to pay for the services of the selectmen by the day, instead of salary, or take any action relating thereto.

18. To hear the reports of town officers and transact any other business that may legally come before said meeting.

Given under our hands and seal this twentieth day of February in the year of our Lord nineteen hundred and nineteen.

HARRY WATKINS,  
GEORGE W. CARROLL,  
J. FOSTER CROSS,

*Selectmen of Merrimack.*

A true copy of Warrant. Attest:

HARRY WATKINS,  
GEORGE W. CARROLL,  
J. FOSTER CROSS,

MARGUERITE M. HENDERSON,  
 OSGOOD F. UPHAM,  
 JOHN E. HASELTINE,

*Trustees.*

## Report of Librarian.

For Year Ending January 31, 1919.

---

Number of books in library	4,692
Number of books added	92
Number of books loaned	5,997
Number of cards issued	52

At the town meeting, March, 1919, Marguerite M. Henderson was elected Trustee for three years, and \$500 was voted for library uses.

Although this report shows a much smaller addition of books than usual, and a corresponding decrease in circulation — owing to war conditions — the year just ended has been the most strenuous one in the history of the library.

The demands of the Government upon libraries all over the country have been severe, and, in our efforts to carry out instructions we have been taxed to the utmost limit of our room and time.

The purchasing power of the dollar has decreased so much that we were forced to drop several of our magazines for the present.

A branch of the library has been re-established, under the direction of Miss Lois Patterson, in South Merrimack and 150 books are to be sent there every three months.

Respectfully submitted,

EMMA A. CROSS,

*Librarian.*

## Books Added to Library Since Feb. 1, 1918

---

### FICTION.

- Beach:  
    Rainbow's End
- Brady:

## Report of the Superintendent

---

*To the School Board of the School District of Merrimack:*

I herewith submit my fifth annual report as superintendent of the schools of Merrimack and my third report as superintendent of the McGaw Normal Institute.

The year last past, serious in its events, amazed by its problems, overshadowed by a world war, has disturbed our civic life and all the enterprises in which our people are engaged more severely than any period since the War for the Union. And unquestionably the schools have felt this disturbance as much and perhaps more than any American institution.

The great advance in the cost of living, in its every detail and the higher wages paid in other enterprises caused so many women to leave the profession of teaching that it made it difficult to secure teachers to fill the vacancies thus caused. In some states schools were closed owing to a lack of teachers.

The Selected Draft, and the Voluntary Enlistment of those who were intensely anxious to answer their country's call took so many men from the ranks of teaching that it was impossible to obtain male principals and instructors for vocational schools.

The widespread epidemic of influenza closed the schools for a period, causing further disturbances in the continuous work of the schools.

Considering the above hindrances our schools have accomplished as much work and have made as great progress as could be reasonably expected. The teachers who remained at their post of duty, desiring to do their part in

winning democracy for the world enjoyed the double duty and privilege of teaching and working for liberty. This class of teachers who listened to the call of duty rather than to the call of money won universal respect and the first consideration for positions of advancement.

### EDUCATIONAL REFORMS.

Educational reforms have followed many of the great wars of history and today as never before the problems of education are being discussed by the legislative bodies of all civilized countries.

In many of the states of the United States there is an educational agitation and an apparent strong public conviction that educational institutions ought to be developed under state and federal guidance rather than to remain under isolated local administration. Forty-three state legislatures will be in session in 1919 and will consider important educational legislation in its various and varied forms and relations.

In accordance with the Proclamation of Gov. John H. Bartlett, the legislation which is planned for the consideration of the present legislature has to do with the equalization of school opportunities. This would require a minimum school year of thirty-six weeks, certified teachers, universal supervision, medical inspection and school nurses for all schools, night schools for teaching the English language to illiterate foreigners as an Americanization measure and the development of technical courses in high schools.

The need of enactment of the above into the laws of our state is apparent to all those whose minds have been awakened to the new condition to which the world must adjust itself.

### AMERICANIZATION.

An evening school for teaching English to illiterate foreigners was opened in the village of Merrimack. Rev.

John W. Wright was chosen principal and William Allen instructor. Manager Cauldfield of the McElwain Plant of Merrimack generously offered the use of a pleasant and commodious room for this school. The offer was gratefully accepted by the school board.

At a meeting held at the home of David R. Jones, superintendent Maro S. Brooks, Executive Secretary of the New Hampshire Committee on Americanization, explained in a clear and interesting manner the method used in teaching English in these schools. With Rev. John W. Wright as principal and William Allen as instructor, with the enthusiastic support of the members of the school board, citizens and Manager Cauldfield, the success of the school is assured.

In his report, speaking of the importance of these schools, Secretary Lane says: "There is no one thing so supremely essential to a Government such as ours, where decisions of such importance must be made by public opinion as that every man and woman and child shall know one tongue, that each may speak to every other and that all may be informed."

### REPAIRS.

Owing to the scarcity of labor, but few repairs were made during the year.

At No. 4 a stove, serving the purpose of heating and ventilating the room was installed. Thus far it has served both purposes admirably and has justified its purchase. This make or a similar one should be purchased for every one-room school house. For this school there are still needed adjustable seats, blackboards and sanitary toilets. When these have been provided this schoolhouse will meet the requirements for comfort and sanitation.

I again urge that each school should receive the utmost care in providing it with facilities for health, comfort and beauty. I am of the opinion that it is better to repair thoroughly two buildings each year than to scatter the

money on minor repairs on all the buildings. This will distribute the expenditures over a series of years.

### "BACK-TO-SCHOOL" DRIVE.

The burdens imposed upon the schools by the war have practically ceased and now comes the national slogan — "Back-to-School" Drive. "Back to School" is a watchword which appeals to citizens in all enterprises and in all walks of life; to school officers that they should provide the best school privileges — the best is none too good; to the citizens that they should provide means for this work; to parents for the regular and punctual attendance of their children at school.

I strongly advise parents to encourage their boys and girls to complete a Secondary School Course. The dollars and cents value of this education, which is by no means as important as the civic and ethical values, is clearly shown in the following table taken from a leaflet prepared by the United States Bureau of Education. This table compares the wages of children who left the New York City schools at 14 years of age with those who left at 18 years of age.

Earnings per week of children who left school at 14, the end of Grammar School.	Age.	Earnings per week of children who left school at 18, the end of High School.
\$4.00	14	
4.50	15	
5.00	16	
6.00	17	
7.00	18	\$10.00
8.50	19	10.75
9.50	20	15.00
9.50	21	16.00
11.75	22	20.00
11.75	23	21.00
12.00	24	23.00
12.75	25	31.00

---

Total salary till 25  
years of age,  
\$5,112.50

---

Total salary till 25  
years of age,  
\$7,337.50

At 25 years of age the boy who had remained in school until 18 had received over \$2,000.00 more salary than the boy who left at 14, and was then receiving over \$900.00 a year more.

### PARENTS AND CITIZENS.

We solicit the parents and citizens to visit the school frequently to get first hand knowledge of the work done in the schools. We also ask your assistance in remedying hinderances to school work, such as truancy, irregular attendance, tardiness and dismissals.

We would appreciate suggestions for improvements in any direction that would lend aid in developing a strong and wholesome manhood and womanhood in our pupils.

### SCHOOL BOARD.

At the writing of this report it is not known what may be your legal requirements for the coming year. I recommend that money be raised for repairing thoroughly at least two school buildings, and for the support of a school for Americanization. I further recommend that you insert in your annual school warrant an article providing for medical inspection of schools.

Respectfully submitted,

HENRY S. ROBERTS,

*Superintendent.*

*Superintendent Henry S. Roberts:*

The following is the report of what all the schools are doing both in drawing, painting and music.

*Drawing.*

In the first grades I have encouraged tracing and crayon coloring within the lines, resulting in more neatness and exactness in their work. The other grades have had object drawing of different fruits, vegetables, china ware and metal objects. Have been taught to shade them and also to use their water colors in the same way; have also made very satisfactorily different things for all the holidays we have had.

*Music.*

I am trying to teach the younger classes to read music in the different keys and also little songs. The upper classes are doing advanced key sign work and are taking two, and a few, three part songs with expression in each.

Very truly yours,

BLANCHE D. NUTTING,

*Supervisor of Music and Drawing.*

ROLL OF PERFECT ATTENDANCE FOR THE  
YEAR ENDING AUGUST 31, 1918.

Louise A. Burns.

THORNTON'S FERRY.

Florence M. Read.

SCHOOL NO. 5.

Edgar F. McKean, Ida L. Putnam.

## McGaw Normal Institute

---

Owing to conditions brought about by the war, it was decided by the Trustees to discontinue the course of Agriculture and Manual Arts at the end of the school year, 1918. Miss Marie F. Stanley, a teacher in the Institute was elected as Principal and Miss Ruth J. Bennett re-elected as Supervisor of Domestic Arts.

The spirit of coöperation between teachers and pupils is excellent. The morale of the Institute is of high standing and has steadily improved during the year. I believe that McGaw Normal Institute is proving itself worthy of a generous support and patronage of the citizens of Merri-mack.

For detailed information I refer you to the reports of the principal and supervisor of Domestic Arts, which follow.

### SCHOOL YEAR, 1917-1918.

Number of weeks in school year	37
Number of days lost because of holidays, bad weather, etc.	91½
Total number of registered pupils	25
Total number of boys	7
Total number of girls	18
Non-resident pupils	1
Average daily attendance	21.34
Average daily absence	1.04
Average membership	22.38
Per cent of attendance	95
Number of tardinesses	34

*To Superintendent and Trustees of McGaw Normal Institute:*

The membership of the school this present year is 21.

	<i>Boys</i>	<i>Girls</i>
Senior	0	1
Junior	2	1
Sophomore	4	6
Freshmen	2	5
	—	—
Total	8	13

A change has been made in the curriculum of last year, no Manual Arts or Agricultural courses being offered. The following subjects are presented:

Freshmen and Sophomores:

French  
Household Appliances  
Biology  
English  
History of Civilization

Junior and Senior:

French  
Physics  
Constitutional History  
English  
Physiology, Nursing and Hygiene

The school day has six one-hour periods, and the system of supervised study, adopted last year, is continued. This system devotes one half of the period to recitation, the last half to preparation, *under supervision*, of the work for the following day. The courses this year have been so arranged by combining the classes, that the work can be carried by two teachers. The present courses in Domestic Arts, History and Science, will probably be alternated next year by Cooking, Sewing, Household Management, Mathematics,

Chemistry and Geology. The main room and the recitation room were newly papered and painted during the summer, making a decided improvement.

The Musical Club, which was organized last year, is giving a series of interesting and instructive programs; the pupils have shown a patriotic spirit during these last months of the Great War, and have pledged and given, both of their time and their money, to the Devasted Children of France, to the Red Cross, to the Armenian Relief Fund, and as Victory Boys and Girls, to the Great War Fund.

As a whole the pupils evince an attitude of progress, of service, and of diligent application in their school work.

Respectfully submitted,

MARIE F. STANLEY,

*Principal.*

*To Superintendent and Trustees of McGaw Normal Institute:*

The work of the Domestic Science Department this year has not been primarily along the lines of cooking and sewing. The work was necessarily doubled up because of the lack of teachers in the school. After a conference with State Superintendent Butterfield, it was decided to alternate the courses by offering Household Appliances to the Freshmen and Sophomores and Physiology to the girls of the Junior and Senior Classes this year; then next year cooking and sewing to the Freshmen and Sophomores and Household Management to the Juniors and Seniors, thereby offering the full course in four years.

As the problem of conservation of food was before us, I carried on the canning class with the Freshmen during the month of September. They canned the following: sweet cucumber pickles, piccalilli, pepper hash, spiced crab apples,

tomatoes, corn, beans, Swiss chard, carrots, green tomato mincemeat, crab apple butter, and crab apple jelly:

In accordance with the Smith-Hughes Fund, which is a sum of money allotted to towns for Agricultural and Domestic Arts work, a fair was held at the school on November 25, 1918. This fair included exhibits of Carpentry, Agriculture, Sewing and Cooking which had been done by the pupils of the town. Mr. Morrison of Nashua gave a very interesting address, and some of the grammar school pupils entertained us with music.

The course in Physiology comprises: Physiology, nursing, invalid cookery, first aid and hygiene. The aim of this course is to teach the pupils the use and care of the body, how to care for and administer the principles of first aid to a patient, and how to prepare nourishing and palatable dishes for the sick.

Respectfully submitted,

RUTH J. BENNETT,

*Head of Domestic Arts Department.*

## In Memoriam

---

### CORNIE M. PARKER.

Cornie M. Parker, for a great many years President of the Board of Trustees of McGaw Institute, passed away at his home in Fitchburg, Mass., Nov. 24, 1918. In his death the Institute loses a valuable friend and trustee. He was always very much interested in the school and in the town of his birth and will be greatly missed by the older residents of the town.

*Trustees of McGaw Institute.*
